

Conestoga-Rovers & Associates Project Summary

KEY PROJECT ELEMENTS

- **Review of Client Operations**
- **Development of Safety and Health Manual**
- **Development of Employee Safety Handbook**
- **Development of Toolbox Safety Talks**

SAFETY AND HEALTH POLICY MANUAL DEVELOPMENT DALLAS, TEXAS

CRA developed a comprehensive safety and health policy manual to meet the needs of HC Price, a natural gas pipeline construction company.

The manual covered the following range of programs:

- Waste Management
- Hearing Conservation
- Crane Operations
- HAZWOPER
- Fire Extinguishers
- Electrical Safety
- Personal Protective Equipment (PPE)
- Respiratory Protection
- Fall Protection
- DOT (HM-181 & 126F)
- CPR/First Aid
- Forklifts
- Hazard Communication
- Welding/Hot Work
- Contractor Safety
- Lockout/Tagout
- Confined Space Entry
- Process Safety Management (PSM)

In addition to the comprehensive safety and health policy manual, CRA also created an employee safety handbook and a library of toolbox safety talks to complement the manual.
