***CITY OF OWEN SOUND  
UPGRADING OF THE OWEN SOUND WASTEWATER TREATMENT PLANT  
CLASS ENVIRONMENTAL ASSESSMENT***

**NOTICE OF STUDY COMMENCEMENT**

The City of Owen Sound is initiating the planning process to determine the wastewater treatment services needed to upgrade the City's existing Wastewater Treatment Plant (WWTP). The Owen Sound WWTP is located at 3<sup>rd</sup> Avenue East in Owen Sound.

The project is being executed according to the requirements of the Municipal Class Environmental Assessment (October 2000, as amended in 2007). A profile of the study area will be developed and technical assessments will be conducted to define the project's opportunities and constraints. Public Information Centres will be scheduled subsequently to provide an opportunity for the public, interested parties and agencies to review the alternatives under consideration, and to provide input and comments.

The City has retained the consulting firm of Conestoga-Rovers & Associates (CRA) to execute the project. Further details on the Municipal Class Environmental Assessment process are available from the consultant's office. Comments or requests to receive direct notification of future project activities should be submitted to either:
